

**LOW-PROFILE STUD LEVELERS**

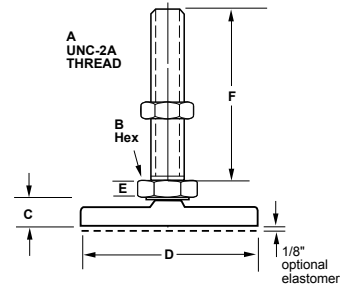

The IEC *Low-Profile Stud Leveler* features an exclusive ball design that minimizes base separation. Ideal for heavy-duty load requirements. Integrated ball and swivel stud provide a low-friction support interface. Perfect for cabinets, instruments, machinery and equipment.

**Features**

- Solid steel/stainless steel
- Integrated ball and socket
- Adjustable height
- Base adjusts 7° off centerline
- Standard gold iridite zinc finish
- Black or clear chromate options
- Optional elastomer pad
- Non-tilt and extended stud length designs

**Applications**

- Equipment benches
- Machinery
- Instruments
- Enclosures

**Stocked Specials      Add to Part Number**

- |                       |      |
|-----------------------|------|
| 3 Inch Extended Stud  | - X3 |
